# Mommy & Me With Miss Nancy

Our program is a great way for your child age 15 months and up to build social skills, self-esteem, and cognitive development.

**FREE PLAY:** Interactive playtime with various activity stations, age appropriate toys, puzzles, and much more. This time encourages socialization, as well as hand/eye coordination and sensory development.

**ARTS & CRAFTS:** Parent and child enjoy various art activities together.

**MUSIC & MOVEMENT:** This time helps children develop their gross motor skills through music and movement.

**SNACK & STORY:** Children sit together to enjoy a light snack, as we end with a short story.
